Stillworlds

A window onto somewhere quieter.

moves slowly, has its own original music and recorded ambience, and turns from day to night with your Mac's clock. Keep one in a window while you work, let it fill the screen in Ambient Mode, or make it your screen saver.

AVAILABILITY	**Out now** as a direct download at stillworlds.app. A Mac App Store edition is to follow.
PLATFORM	macOS 14 or later
PRICE	**Free** with three worlds to keep: Lantern Rain, Greenhouse and City After Hours. **Complete Launch Collection £5.99**, once: all eleven. The Quiet Isle on its own £1.99. No subscription. UK prices, VAT included.
SOUND	Original music and recorded ambience in every world. The rain in Lantern Rain is a recording of a real lake.
WAYS TO WATCH	In a window · Ambient Mode, full screen, with a sleep timer · as the screen saver
PRIVACY	Plays offline. No accounts, analytics or tracking.
MADE BY	Dwayne, independently, in London
